KARL G. MAESER, of Utah.

GOLD BUG CONSPIRACY.

A remarkable article lately appeared in the New York Voice which we regard as reliable, and so clearly shows the volume of money that THE DIS-PATCH reproduces it:

Little by little it becomes apparent that the associated bankers of this country are gathering their forces for a mighty stroggle during the next see-

sion of congress.

No public proclamation has been issued and no brass bands are being employed; but unless all indications are misleading, there is on foot a definite, concerted movement that is likely to change the line of battle on the cur-

rency question,
The purpose of the bankers is this:
To strike with all their power for a law that shall put out of existence, once for all, the entire issue of United

States notes known as greenbacks.

The plea which they will make will be the highly patriotic plea that this action is necessary to rescue the treasury from its perilous position and establish the ustion's finances on a firm

The plea will be a false one, the patriotic professions will be delusive, and the result of the action proposed will be a far-reaching disaster whose ultimate consequences are incalculable.

Here are the facts: There are in circu-

hare are includes about \$340,000,030 of graenbacks. These graenbacks the policy underlying the national bank system, and they have from the beginning been regarded by the bankers with hostility. They insisted on their retirement as part of the plan of resumption twenty years ago and this retireer. The national bankers' convention held a few weeks ago took steps to arge upon congress the retirement of the greenbacks. The journals that best represent the thought of the organization have been for six months, with infinite tact and skill, testing the public temper on the subject. The public has not taken alarm. The time seems auspicious. The plans have been consummated. The bill is already being prepared for effecting the desired end.

What is the motive behind all this? The ostensible motive is this: The greenbacks are exchangeable on de-

greenbacks are exchangeable on de-mand, at the United States treasury, for gold. They are the vehicles by means of which the gold reserve has been taken out of the treasury. On the face of the thing they are to blame for the treasury's recent troubles. What more plausible, therefore, than to say, is to retire these greenbacks as fast as they are redeemed, destroying them at

In the Morning

Dull Headaches and Pains

Mr. R. A. Goutnens is well known as general merchant and postmaster of S. Holland, III. He writes: " Allow me to express my sincere satisfaction with Hood's Sersaparilla. For years I was afflicted with sick headaches arising from disordered stomach and im-pure blood. Every morning I had dull

Pains in My Head. I tried family medicines of various names and descriptions, all failing to produce the desired result. I had heard and read

Hood's Saraa Cures finally concluded to give it a fair trial. In a short time my appetite improved, my headaches ceased, and the dull and Despondent Feeling Cave Way

to a more cheerful spirit. Hood's Sarsa, the fall before serious sickness has laid parilla is the best known preparation to purify the blood, tone up the system and produce an enormous appetite." R. A. Gouwers, South Holland, Illinois.

The U. S. Gov't Reports show Powel Raking Powder.

Hood's Pills act harmoniously with

once instead of reissuing them, and thus putting a stop to the endless chain of buckets that is carrying away our

This is the argument, It is plausible. In it sound or sincere?

No. On the contrary, it is impossible, when one is acquainted with the facts, either to believe that the proposed action will remedy matters, or to believe that the bankers believe it

In the first place, the greenbacks have not caused the treasury's 'roubles.

penses. If he is, instead of that, to destroy them, he must pay those ex-penses in some other way. If he must eceive greenbacks but cannot any onger pay out greenbacks, it is as evident as that two and two make four, that the treasury instead of being re lieved will bestill more greatly embarrassed, and more in need of help

than ever. No, the associated bankers are not proposing this action for the relief of the treasury or the relief of the country. Their ostensible motive is not their real motive. It is impossible to believe that it is.

believe that it is.
What, then, is their real motive?

With the greenbacks out of the way to what lengths the money kings of there will no longer be any reason for the east will go if they can to reduce it the treasury's keeping a gold reserve. It will, as a matter of course, gradually disappear as the greenbacks are retired. When that event occurs the banks will be the only place to which any one can g to get gold.

The entire circulation of the country

will be based upon gold, but the banks will have a complete monopoly in the matter of supplying gold, barring alone the slow production of the mines. The government itself will have to look to the banks when it wants gold with which to pay the interest on its bonds. This is part of the reason for the project of the bankers.

Another and similar reason is that

the greenbacks are a constant objectlesson to the people that the government itself can supply a safe, sound and convenient currency as well as the banks. The greenback is a con-siant threat to the bank note, And now when the bonds on which the bank note issue is based are nearing maturity, the whole bank note system is near an end, unless the £346,000 000 of greenbacks can be forced out of existence, leaving a vacuum that must be filled by something also. This is why filled by something else. This is why they have selzed the present pretext so promptly. This is why, as we more than suspect, they propose to keep us on the ragged edge of another financial panic until congress is introcept. Per it must not be overlooked that if the Belmont-Morgan-Rothschilds syndi system, and they have from the beginning been regarded by the bankers with hostility. They ineisted on their retirement as part of the plan of resumption twenty years ago, and this retirement was actually begun. So immediate and stern was the popular protest, however, that that provision of the law was repealed and the green-backs preserved as a part of the national currency. From that day to this the bankers have sulkily watched for their amortiunity and they thisk they. If it has been able to do that in one case it can do it in another and their opportunity and they think they have it now. Whether they bave it or not, they cannot safely wait any longer. The national bankers' convention one way because paid to do so, the next year it can turn the tide the other way if it wants to force action by congress that will compete the money monopoly of the banks. The financial crisis that will soon

as mercury will surely destroy the sense cept on prescriptions from reputable physicians, as the danger they will do bankers do, that the real remedy etire these greenbacks as fast as re redeemed, destroying them at Cure, manufactured by F. J. Cheney & Co., Toiedo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrn Cure be sure you get the genuine. It is taken internally, and made in Tolodo, Ohio, by F. J. Chency & Co Festimonials free. Sold by druggists, price 75 cents per bottle.

A Timely Reminder.

Each season forces upon our consideration its own peculiar perils to health.

The advent of fall finds many reduced in strength and vigor, poorly prepared to continue the business of life. The stomach and howeighther the property in the stomach and howeighther the stomach and the s stomach and bowels, the great highway of animal economy, is especially liable to disorder in the fall. The nervous Typhoid fever and malaris in particular find in the fall that combination of earth, air and water that mark this season as especially dangerous. The falling leaves, the decaying vegetables contribute their share of contamination. Hood's Sarsaparilla furnishes a most valuable safeguard at these important points, and should be used in the fall before serious sickness has laid Thursday Sept. 12.

show Royal Baking Powder superior to all others.

stroy the demand for gold for export, nor render it any more eithfield the fluancial writer of the Sun, easy it would:

"If the legal tenders were retirred all debts, including bank deposits, would become realy payable in gold, though nominally in silver also. The exporter of gold would demand it from the banks, and the banks would have either to pay it or relieve by any discoss that should be carried off remains in the banks, and the banks would have either to pay it or relieve be should come to the suspersion of gold payments to avoid which we have for the last low years made such streams of some which we have for the last low years made such streams of some when the must pay those as need to make a need to some the whole and the supersion of gold payments to avoid which we have for the last low years made such streams of some when the must pay those as need to some the whole and the supersion of gold payments to avoid which we have for the last low years made such streams of some such as the supersion of gold payments to avoid which we have for the last low years made such streams of some such streams of some such streams and strengthens.

The treasurer now reissues the green are some of some real payment of any amount before mature to do not retired all debts, including bank deposits, would be call on or write George A. Duescherry at each stream of discontinuous of the subject of the subje Every package has the Red Z stamp on the wrapper, J. H. Zeilin & Co., Philadelahia.

WM. WILLIAMS, Clerk.

What is a Guarantee? It is this. If you have a Cough or old, a tickling in the Throat, which keeps you constantly coughing, or if you are afflicted with any Chest you are allicted with any Chest, Throat or Lung Trouble, Whooping Cough, &c., and you use Ballard's Horehound Syrup 22 directed, giving it a fair trial, and no benefit is experienced, we authorize our advertised agent to refund your money on return of bottle. It never fails to give satisfaction. It promptly relieves Bron-chitis. Sold by Smoot Drug company.

Passing an Examination. The story of a well known bishop which reached me the other day seems good enough for publication. The bishop was one day examining a batch of dea cons for priests' wrders. After the theoretical part of the examination, he said to them: "Gentlemen, you have passed a most excellent examination in theory. I should now like to see you do some-thing practical. I shall go into the next room and personate a sick man. You will come in, one by one, address me as a sick parishioner, and say something comforting." When his lordship had retired, the candidates were in some confusion, and nobody cared to begin but at last a mad Irishman voluntered to be the first. He entered the study and approached the bishop, who was lying with a woebegone air on the soft, and thus addressed him: "Oh, Ancheny, Anthony! The drink again! Shure it will be the death of ye! Turn from your svil ways before it's too late and be a man!" This is said to be the last time that the bishop held a practical exami-nation.—London Truth.

What and Where Is Heaven? Alger says that "heaven" is not dis unctively a world situated somewhere in immensity, but that it is "a state of pure spiritual existence, having nothing to do with any special time or place." He further says that "beaven is a state of the soul or a state of society under the rule of God's will, either in this life or in a future state of existence." From the above it is clear that the great au thority therein quoted considered that "beaven" does not mean a bounded
